

TITAN TOKEN

WHITE PAPER

UNIVERSAL GAMING TOKEN

This whitepaper does not serve as an offer to sell or a solicitation for an offer to purchase, nor will there be any sale of Tokens (as defined herein) to any U.S. Person (as defined below), within the United States, or in any other jurisdiction where such an offer, solicitation, or sale would be illegal prior to registration or qualification under the relevant laws of that jurisdiction.

THE TOKENS HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE US SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND CANNOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATIONS UNDER THE SECURITIES ACT).

INTRODUCTION

THE UNIVERSAL GAMING TOKEN

NOTE: A LIVING DOCUMENT

This metapaper is a dynamic document that will be regularly updated as new information emerges. Its purpose is to outline the initial vision, present the details currently available, foster discussion and feedback, and continuously enhance every element of the Titan Token.

⚠ WARNING:

Beware of scams as we update naming & branding across exchanges, token sites and block explorers. Only follow official sources for updates & remember, no one from the team will ever DM first.

● PLEASE NOTE:

Our staking interface helps estimate rewards and draft blockchain transactions for you to review and execute at your discretion. See our Staking Terms for more. Staking rewards estimates are based on current information from the public DAO Staker contract. Estimates are based on the total value of Pooled Assets and Rewards available and may change block-by-block.

1 UNSTOPPABLE. UNMATCHED.

The universal gaming token (\$TNT)

1.1 INNOVATION

Titan Token (\$TNT) introduces a new era of decentralized gaming by integrating blockchain technology with immersive gameplay experiences. Built for the next generation of Web3 games, \$TNT empowers players by transforming in-game assets into real-world value. Through smart contracts, seamless integration with gaming platforms, and a utility-first token design, \$TNT enables true ownership, frictionless transactions, and a sustainable play-and-earn ecosystem. Titan Token is not just a currency – it's the fuel behind a dynamic, player-driven economy where innovation meets entertainment.

1.2 DISTRIBUTION

The total supply of 100 million \$TNT is strategically allocated to ensure long-term sustainability, ecosystem growth, and community alignment. The distribution model prioritizes fairness, incentivized participation, and development:

- PreSale and Dex Listing - 56%
- Cex Listings – 15%
- Gaming Rewards - 10%
- Staking Rewards - 7%
- Ecosystem - 8%
- Marketing and Airdrop - 2%, 2%

This allocation ensures Titan Token remains accessible, incentivized, and equipped to scale across multiple gaming platforms and partnerships.

1.3 UNIFICATION

Titan Token serves as the unifying force across a diverse ecosystem of games, platforms, and communities. It brings together developers, players, investors, and creators under one shared economy. Through cross-platform compatibility, governance integration, and reward mechanisms, \$TNT ensures every stakeholder has a voice and a value. By creating a single, interoperable token standard, Titan Token fosters unity in a fragmented gaming world – turning isolated game worlds into an interconnected, player-empowered metaverse.

2 PHASES

Titan Token was created to connect the web3 community to mainstream gaming.

Today the project makes that vision a reality.

As the \$TNT expands, so too will its protocol layers:

2.1 PHASE I: DECENTRALIZATION

Titan Token DAO staking is live. Participants in the staking pool govern over existing on-chain product fees such as House of Titans. Stakers unlock exclusive events, custom cosmetics and additional unique perks across partner ecosystems. As the technology stack evolves, the DAO will become a critical decentralization and governance layer.

2.2 PHASE II: INTEGRATION

\$TNT is being integrated into industry-leading web3 games.

This enables projects to seamlessly share users and liquidity, reducing fragmentation while increasing the industry's chance of mainstream success.

Stay tuned for major partnership announcements.

2.3 PHASE III: EVOLUTION

\$TNT is evolving into its own chain, designed in partnership with industry leaders to be the definitive home for web3 gaming.

More info to come.....

3 HOUSE OF TITAN

House of Titans is a social-gaming metaverse on a mission to:

- Act as a bridge between today's Web2 gaming culture and the potential of Web3 technology
- Provide creators with robust tools to build and monetize original content within the House of Titans Metaverse
- Provide players with fun social-gaming environments that contain opportunities to earn

As the starting point of this exciting journey, House of Titans is publishing its self-titled social deduction game to establish an engaged player base and lay the foundation for a thriving gaming ecosystem.

House of Titans is much more than a cool idea, it's already in closed beta and beloved by a passionate community of holders and players. Launching with a game already built should be the norm, and that's what House of Titans has done!

3.1 WHY SOCIAL DEDUCTION?

Social deduction is a relatively young genre in the online gaming space that took the world by storm as the global pandemic erupted in 2020. The game style is fun, accessible and – most importantly – highly social. With the niche being home to almost 500 million users, it is in many ways the perfect lane for Web3 gaming to gain supremacy. In addition, the leading games in the

social deduction genre are dramatically underdeveloped compared to genres like MMORPG or First-Person Shooters, and there is a clear lack of AAA quality competitors. The team behind House of Titans believes that social gaming serves as the ideal bridge to the metaverse. Social games allow for interpersonal interactions that build community – a core element of the Web3 movement. The combination of factors around social deduction, or social gaming as a whole, makes it the perfect niche to create the first hit NFT gaming ecosystem.

3.2 FUTURE GAME MODES

Social deduction is just the first gameplay experience that will be housed within the House of Titans Metaverse. The House of Titans team will continue to build out the gaming ecosystem and its economy in the months and years to come. As a fast-developing gaming ecosystem, more features, tools, and game modes will be added on an ongoing basis. House of Titans will host an array of tools that allow any player to create their own fun and immersive gameplay experiences within the game client. This means that House of Titans could one day be home to hundreds or even thousands of game modes for players to choose from and leverage their NFTs.

3.3 UGC SANDBOX

To be long-term successful and sustainable, Web3 networks require sufficient decentralization and robust tools for all users to contribute. Regardless of the complexities of game development, this must remain as true within the metaverse as it is in DeFi or any other area of the blockchain space.

At its core, House of Titans is a platform that will empower users with two key tools:

- The “Map Maker” will allow users to customize their own maps and rules within existing modes like social deduction
- The “Game Mode Maker” will provide powerful tools for users and companies to build their own scripting logic. The House of Titans Metaverse aims to be continually updated with new, original games to create a diversity of experiences and new ways to earn.

4 MILESTONES ACHIEVED

The House of Titans roadmap, while still in its early stages, has been filled with exciting milestones and achievements such as the wildly successful community gameplay events. The community is hungry for more and House of Titans can’t wait to show the full magic of its gaming ecosystem. Here are some of the already achieved milestones:

4.1 METAPAPER

March 22: House of Titans released its MetaPaper, laying out the vision for the House of Titans metaverse & outlining how the House of Titans gameplay serves as a Hook for a larger gaming ecosystem metaverse with multiple P2E nested economies.

You can find metapaper on website.

4.2 PRESALE ON PINKSALE

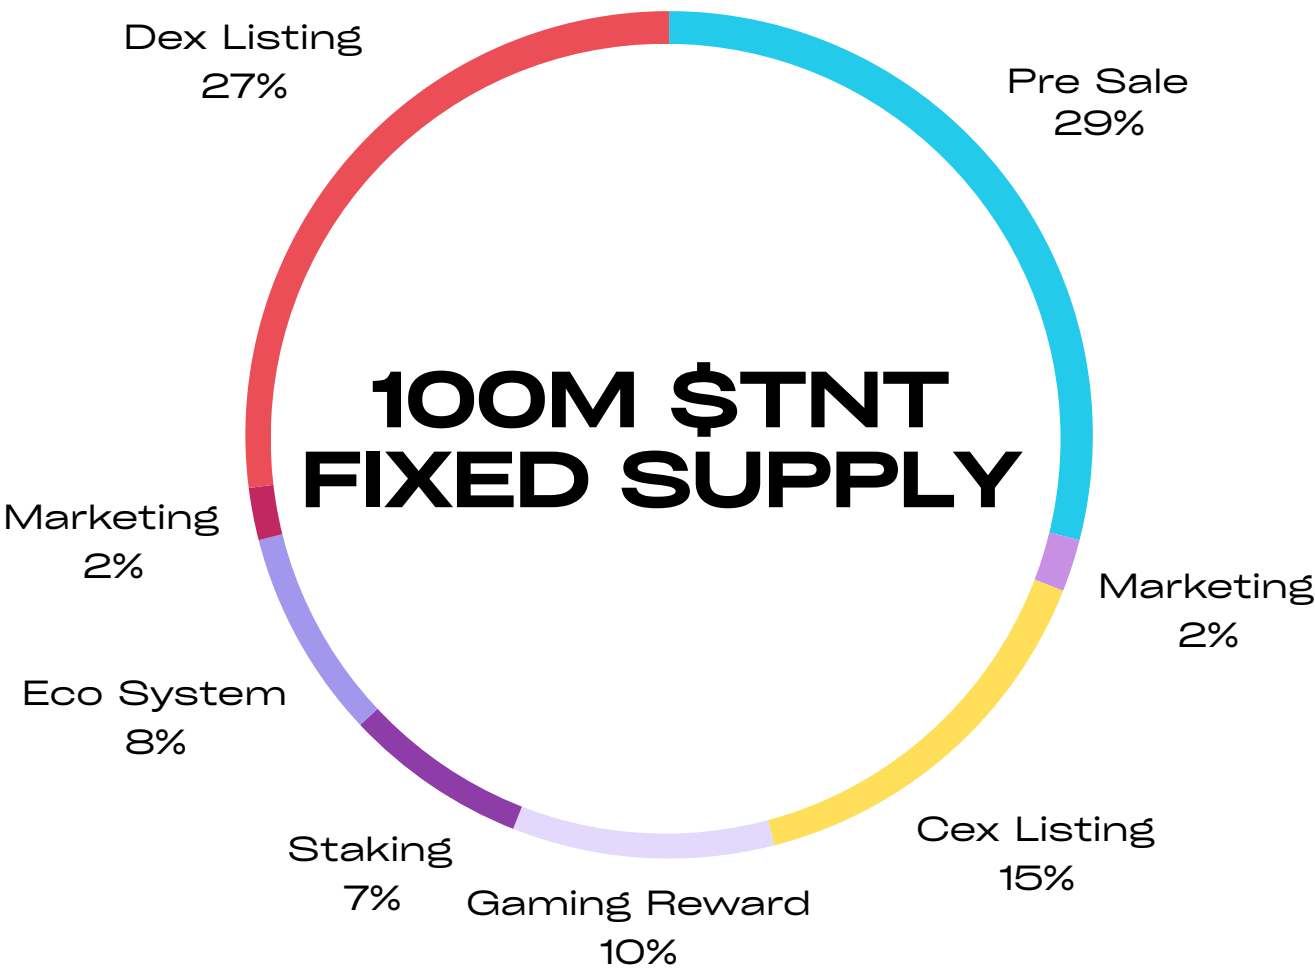

The presale of Titan Token \$TNT has concluded on Pinksale, attracting a significant number of participants and successfully raising a substantial amount of funds. All proceeds will be directed toward Dex, resulting in an increase in Dex supply from 29% to 56%, which is a promising indicator for investors.

4.3 HELLO TITAN

Hello Titan is a community-driven crowdfunding initiative that significantly benefits both the \$TNT price and community growth. This highly popular project has the potential to connect millions of people within just one year.

5 TITAN TOKEN TOKENOMICS

Fixed supply of 100M Titan Token (\$TNT).
Allocation: 29% Pre Sale, 27% DEX Listing, 15% CEX Listing, 10% Gaming Rewards, 8% Ecosystem, 7% Staking Rewards, 2% Marketing, 2% Airdrop.
Strategic distribution for launch, growth, and ecosystem development.

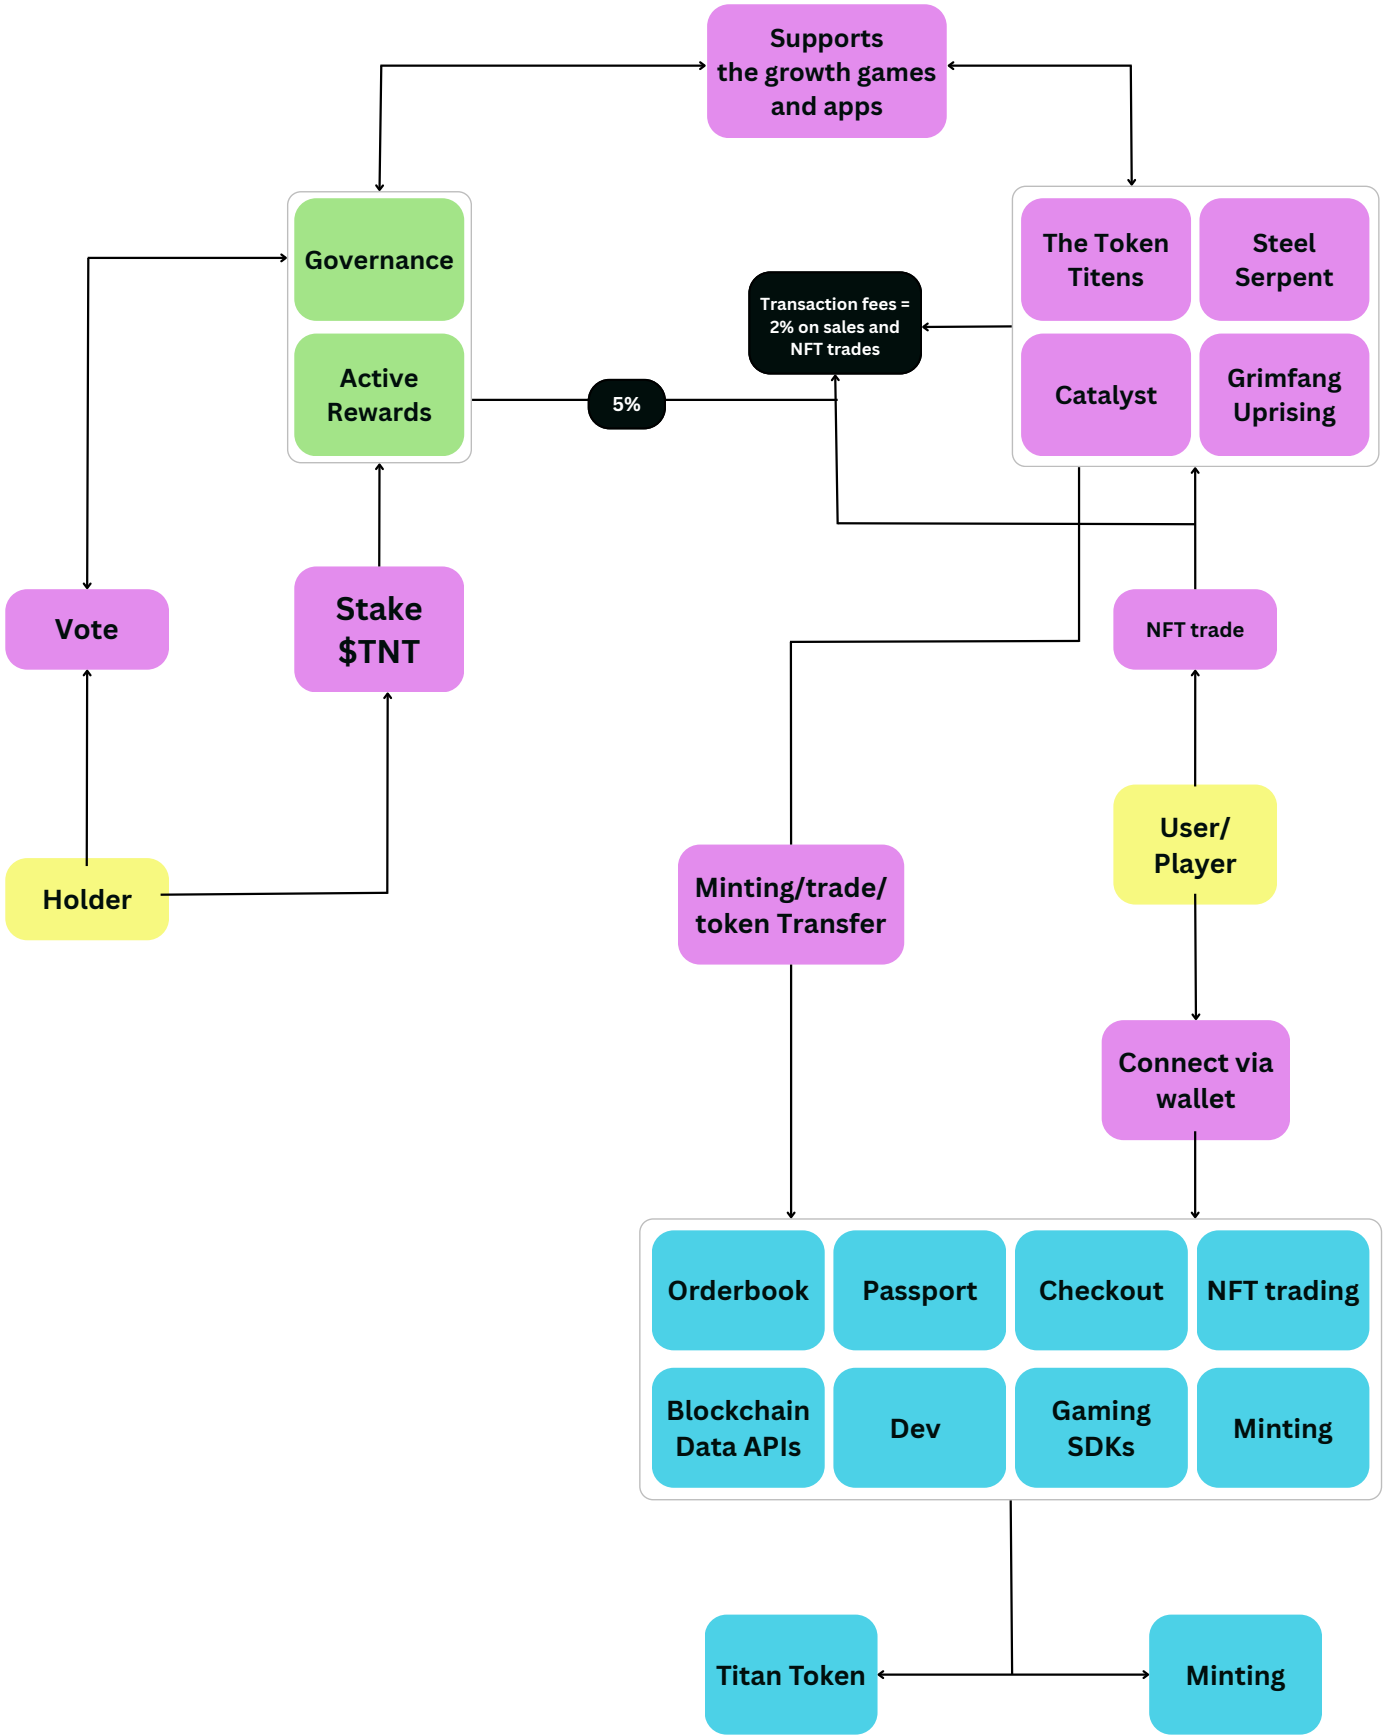

5.1 TITAN TOKEN FULL VESTING SCHEDULE

Titan Token (\$TNT) Full Vesting Schedule							
Total Supply: 100,000,000 (100 Million)							
Category	Allocation (%)	Tokens	Unlock Cliff	Unlock Summary	Unlock Frequency	Unlock Periods	Fully Unlocked By
Presale +Dex	56%	55,782,313	On TGE	100% unlocked immediately	-	1	April, 2025
Cex Listing	15%	15,000,000	6 months	100% unlocked immediately	-	1	October, 2025
Gaming Reward	10%	10,000,000	6 months	5% unlocked after cliff, remaining 95% over 48 months	Monthly	48	October, 2029
Staking Reward	7%	7,000,000	12 months	Linear unlock over 24 months after cliff	Monthly	24	April, 2028
Ecosystem	8%	8,000,000	None	Linear unlock over 36 months starting from TGE	Monthly	36	April, 2028
Marketing	2%	2,000,000	1 month	10% unlock after cliff, rest unlocks linearly over 18 months	Monthly	18	November, 2026
Air Drop	2%	2,000,000	12 month	Unlock in 2 equal events: 50% at 12 months, 50% at 18 months	2 Events	2	October, 2026

7 LEGAL DISCLAIMER(S)

Legal Notice and Risk Disclosure

This Legal Notice and Risk Disclosure Statement (the “Notice”) is provided by House of Titan. Any statements and representations made by us or on our behalf, and any use of the tokens issued by us (the “TNT” or “Tokens”) or of any platform, service or protocol upon which our Tokens operate (the “Project”), regardless of whether such Project is owned, operated, developed or otherwise controlled by us, shall be subject to this Notice. Please read this Notice carefully before using or interacting with the Project or the Token. In addition, the Tokens are subject to additional terms and conditions that may be amended by us from time to time. The Project may also be subject to additional terms and conditions that may be amended by the owner of the Project from time to time.

Legal Notice

Information and Communications

Our website available at www.titantoken.com, the Project, and any other information communicated by us or on our behalf, whether through our whitepaper, communication channels or otherwise (collectively, the “Materials”), do not constitute an offer to sell, a recommendation or solicitation to buy, sell or hold Tokens or any other assets. Nothing in the Materials constitutes a recommendation or solicitation to use the Tokens, the Project or any related products, services or technologies. Always make sure to verify that the information that you believe is provided by us is posted or communicated by our authorised representatives.

Any and all Materials are provided for informational and educational purposes only, and should not be relied upon, either wholly or partially, when making any decision. We do not **warrant, guarantee** or represent, whether expressly or impliedly, that the Materials are true, complete, timely, reliable, accurate, sufficient, non- infringing or fit for a particular purpose, and we will be under no obligation to update or fix such Materials. We shall not be responsible for the accuracy or completeness of the Materials; therefore any use of such Materials is at your own discretion and risk, and you are solely responsible for any possible damages or losses arising from such use. You should always conduct your own independent research and investigation.

Materials may also contain references to third-party data and industry publications. Although we believe that such data is accurate and reasonable, there are no assurances as to the accuracy or completeness of this data. We have not independently verified any of the data from third-party sources referred to on the Website or in connection with the Project, or ascertained the underlying assumptions relied upon by such sources. Any reference to such third-party data and industry publications does not imply our endorsement thereof.

The Tokens

We do not make any warranties or representations of any kind with regard to the Tokens, and we expressly disclaim all warranties and representations relating to the Tokens, whether express or implied, including, without limitation, any implied warranties of merchantability, fitness for a particular purpose, title, and non- infringement. The Tokens are provided on an «as is» and «as available» basis. There is no guarantee that the Tokens will perform as expected or hold any particular value or price. The Tokens may lose some or all of their value. We do not make any promises with respect to the Tokens, its price, value, supply amount, performance, etc. We cannot and do not influence the price of the Tokens or its performance, and assume no liability to any person for the

Tokens, their performance, value or loss in value, the use or inability to use the Tokens.

The Token is not an investment, security, share or equity interest, debt or loan nor a derivative instrument of any of the foregoing. Neither the Materials nor anything communicated or provided by us constitutes a prospectus or offering document, or is an offer to sell or solicitation of an offer to buy Tokens or any other asset.

Unless otherwise specified, the Tokens do not provide any person with the rights of any type with respect to us or our affiliates, their revenues or assets, including, but not limited to, any voting, distribution, redemption, liquidation, proprietary or other financial or legal rights, nor are the Tokens intended to provide any person with any other rights of any type. The Tokens are not a loan and do not provide any right of ownership or other interest. Unless expressly allowed by us at our discretion, Tokens cannot be received, used, or held by, transferred or sold to, a person which is (i) the subject of economic or financial sanctions or trade embargoes administered or enforced by any country or government, including, but not limited to, those administered by the United Nations Security Council, the European Union, Her Majesty's Treasury of the United Kingdom or Office of Foreign Assets Control of the United States or any other applicable jurisdictions, (ii) located, organised or resident in any country or territory that is the subject of country-wide or territory-wide sanctions, (iii) listed in any sanctions-related list of sanctioned persons, including, but not limited to, those maintained by the United Nations Security Council, the European Union, Her Majesty's Treasury of the United Kingdom or Office of Foreign Assets Control of the United States, (iv) located, organised or resident in Australia, Canada, Cuba, the Democratic People's Republic of North Korea, Hong Kong SAR, the Islamic Republic of Iran, Libya, the People's Republic of China, South Sudan, Sudan (North), Syria, The Crimea, United States of America, any jurisdiction in which the acquisition and/or ownership of Tokens is prohibited by applicable law, or (v) directly or indirectly owned or controlled by any person or persons described above.

The Project is in its Beta Stage

The Project, while not owned, operated, developed or otherwise controlled by us, is in beta stage, which means that the Project and all related software are experimental. The Project is provided on an "as is" and "as available" basis, without warranty of any kind, either expressed or implied, including, without limitation, warranties that the Project is free of defects, vulnerabilities, merchantable, fit for a particular purpose or non-infringing. Any use of the Project shall be at your own risk. In no event shall we be held liable in connection with or for any claims, losses, damages or other liabilities, whether in contract, tort or otherwise, arising out of or in connection with the Project or its operation or use.

Forward-Looking Statements

The Website, the Project, and the Materials may contain forward-looking statements based on current expectations that involve a number of risks and uncertainties. All opinions, forecasts, projections, future plans or other statements other than statements of historical fact, are forward-looking statements. Any development plans and projections, business projections, future functionality and projected performance of the Tokens, the Project or us, as well as prospects and the future prospects of any industry, are forward-looking statements.

Forward-looking statements by their nature address matters that are, to different degrees, uncertain or unknown. We can give no assurance that any forward-looking statements will prove to have been correct. Actual events, results or outcomes could differ materially from what is stated in the forward-looking statement, and you should not rely on any such forward-looking statement. These risks and uncertainties include the impact of economic, competitive, technical and other factors affecting the Tokens, the Project, us or our operations, including, but not limited to, the following: development of science and technology, development of the industry in which we are in, competition, regulatory uncertainty and government actions, the introduction of new regulations and laws, market changes, the performance of the Tokens, the Project or related products, other business and market conditions.

No Advice

No part of the Website, the Project or the Materials should be considered to be business, legal, financial, investment, or tax advice, or advice of a broker regarding any matters to which all or any part of such information relates. You should consult your own legal, financial, tax, or other professional advisors regarding any such information.

Acceptance of Risks and No Liability

You must read the Risk Disclosure Statement below, and by accessing or using the Tokens and/or the Project you accept all of the listed risks and agree that we shall not be in any way liable for any losses or damages incurred due to or in connection with such risks. You do hereby also acknowledge and agree that both the Tokens and the Project may be subject to additional risk disclosure statements that may be amended from time to time.

Indemnity and Limitation of Liability

You do hereby to the fullest extent permitted by applicable laws and regulations indemnify, defend and hold us, our employees, directors, shareholders, officers, consultants, representatives, agents or contractors harmless from and against any and all loss, penalty, claim, damage, liability or expense whatsoever (including reasonable attorneys' fees and disbursements) due to or arising out of or based upon (i) any inaccurate representation or warranty made by you, or breach or failure by you to comply with any covenant or agreement made by you or in any other document furnished by you to any of the foregoing persons in connection with the Tokens or the Project, or (ii) any action instituted by or on your behalf against any of the foregoing persons that is finally resolved by judgment against you or in favor of any of the foregoing persons.

To the maximum extent permitted by applicable laws and regulations, in no event shall us, our employees, directors, shareholders, officers, consultants, representatives, agents or contractors be liable or responsible for any direct, indirect, special, punitive, exemplary, incidental, or consequential damages or losses of any kind, nor shall they be liable for the loss of goodwill, loss of profits (including expected), loss of data, diminution of value, and business interruption arising out of or in connection with the use of the Tokens, the Project or the Materials or reliance thereon, any inaccuracy or omission in any Materials, whether based upon breach of warranty or contract, negligence, strict liability, tort, or any other legal theory, regardless of whether we have been advised of the possibility of such damages or losses.

Risk Disclosure Statement

Risk of Software Weaknesses

Although we make reasonable efforts to ensure that the Tokens, the Project and their related software follow the high-security standards, we do not warrant or represent that the Tokens, the Project or any such related software are secure or safe, or protected from phishing, malware or other malicious attacks. Further, the Tokens, the Project and their related software may contain weaknesses, bugs, vulnerabilities, viruses or other defects which may have a material adverse effect on the operation of the Tokens, the Project or any such related software or may lead to losses and damages for you, other users of the Tokens, the Project or any such related software or third persons.

Risk Inherent in the Blockchain

The Tokens, the Project and their related software are or will be deployed on the Ethereum blockchain main network, and later may be deployed on other blockchains. As a result, any malfunction, breakdown or abandonment of such blockchain(s) may have a material adverse effect on the Tokens, the Project or such related software. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to the Tokens, the Project or such related software, and related blockchain software by rendering ineffective the cryptographic consensus mechanism that underpins the blockchain. The smart-contract concept, the underlying software application and software platform (i.e., Ethereum or other blockchain) are still in an early development stage and unproven. Although it is very unlikely, the blockchain, as well as any other blockchain, can be attacked which may result in downtime, consensus split, long reorganization of the chain, 51 percent attack, or other adverse outcomes each of which may lead to complete loss of your digital assets.

Risk of Flawed Logic of the Tokens, the Project or their Related Software

The underlying logic of the Tokens, the Project and their related software may be flawed, defective or impaired, which can result in smart-contracts operating incorrectly or not as expected, or transactions being executed in violation of logic which underpins the smart-contracts, which can lead to partial or complete loss of digital assets used in the transaction.

Risk of Confusing User Interface

Certain user interface elements or design decisions can be confusing or mislead you, which may result in the execution of a different action or transaction than intended or desired, or connection of a wrong wallet, account or network.

Risk of Legal Uncertainty

Our intended activities are subject to various laws and regulations in the countries where we operate or intend to operate. We might be obliged to obtain different licenses or other permissive documents in some or all jurisdictions where we intend to operate our business, therefore, our business in such jurisdictions shall always be subject to obtaining such licenses or permissive documents, if so directed by applicable laws. There is a risk that certain activities may be deemed in violation of any such law or regulation. Penalties for any such potential violation would be unknown. Additionally, changes in applicable laws or regulations or evolving interpretations of existing law could, in certain circumstances, result in increased compliance costs or capital expenditures, which could affect our ability to carry on our business model.

THANK YOU

**TITAN
TOKEN**
UNIVERSAL GAMING TOKEN
